TONOPAH MAN WINS KNIGHTHOOD

SULTAN OF SULU DECORATES JAMES HAFFERON WITH ORDER OF COCOANUT.

James Hafferon returned from a visit to the coast yesterday and is exhibiting a piece of parchment from the Sultan of Sulu, which from now on places Jimmy in the line of royalty.

Jimmy's fame as a mixologist had preceded him to the coast and a special emissary of the Sultan of Sulu was stopping at the St. Francis. The representative of the island potentate was lounging around the corridors of the hotel when the Tonopah man suggested that they have a quiet one in the shape of a "kurdess." An order issued to the genius behind the bar from Jim met with a look of blankness. It seemed that the decoction consisted of the milk of a coconut which had to be frapped in its shell, whereupon a dash of benedictine and absinthe added furnished a drink that caused a man to seek his couch and dream that he was the master of a harem containing at no time less than 100 beautiful young ladies of all nationalities. One drink of the "kurdess" called for a repetition and as a hundred females were seen with every drink Jim says that there was a constant mass of moving pictures until the gentleman from the Philippines awoke at 11 a. m. next day. A wireless to the sultan was responded to with knighthood for the Tonopah man and the monkeys in the domain of the Sultan are now all busily engaged in whirling cocoanuts so that the milk therein will be frapped when his nib's call for a "kurdess."

JUDGE SWEENEY'S CHILD DIES.

A dispatch received in this city yesterday stated that the family of Associate Justice of the Supreme Court James G. Sweeney, had been invaded by the hand of death. The little child, some two years old, met with an accident by falling into a tub of hot water. Every remedy known to science was applied but all to no avail and the little one succumbed yesterday afternoon. The sympathy of the people of this community will go out to the family in this, their hour of bereavement.

POSTPONE ICE CREAM SOCIAL.

The ice cream social, which was to have been given by the ladies of the Presbyterian church on Friday evening has been postponed until a later date.

Follow the fight fans tonight. Returns at Big Casino.

Salt Lake, returned yesterday accompanied by her daughter. Mrs. Wilson has been receiving care at the hands of one of the most noted oculists in this country, has been given the relief desired.

John Seward in his auto returned yesterday from Atwood, where he had taken J. G. Richardson, Fred Seybolt and Robert Davidson. The run in Mr. Seward's auto to Atwood was made in four hours and the round trip was made without a hitch or a break in this fine piece of mechanism.

A. W. Amplett leaves this morning for Pittsburg. At that point Mr. Amplett will be joined by his brother and together they will go to Nicaragua. Mr. Amplett has been the assayer for the Montana Tonopah company and has a host of friends in this city. He is one of the most genial and companionable young men to be found in a long course of travel. His friends are congratulating him on securing the position, which is general manager of the La Luz mill in the Central American republic.

DO YOU KNOW

That from October 1st, 1907, to June 1st, 1908, a period in which occurred the greatest financial disturbance experienced in the United States in fifty years, not one National Bank in Nevada, California, Idaho, Montana, Oregon, or Washington, was forced out of business by the stringency.

Is not a bank financially strong and sufficiently resourceful to have escaped the extreme effects of the panic of last fall worthy of your confidence?

Why not open an account with the "National."

GREAT BODIES OF COPPER ORE

BLUE LIGHT COMPANY'S NEAR MINA IS IMMENSE PROPOSITION.

Daniel E. Storms of the Blue Light Copper company, whose great property is situated eight miles west of Mina, arrived in this city yesterday from the east and will return this morning to Mina. "We have a double-compartment shaft down 700 feet," said Mr. Storms yesterday, "and everything looks so promising that we have ordered a 100-horsepower engine and hoist which is on its way to the property. We intend to carry on an extensive system of development. This work will be under the direct charge of R. S. Chalmers, who is reckoned as one of the most competent engineers and who has had charge of extensive copper mines in Spain for a number of years past."

"The company is undecided yet whether to build a concentrating plant to handle the large bodies of ore which are already blocked off, something over 2,000,000 tons or put up a smelting plant. This matter will be settled within a very short time. We propose sinking to reach the water level in order to tap the sulphide ores if they exist and the company believes that they do, on account of the vast bodies of carbonates, in other words to get to the second enrichment."

FOUR-YEAR COURSE FOR HIGH SCHOOL

GRADUATES CAN THEN BE ACCREDITED TO VARIOUS UNIVERSITIES.

The Tonopah high school, in common with all the high schools of this state, will henceforth have four year courses of study in place of three years, thus accrediting the school to the University of Nevada, the University of California and Stanford.

Another important acquisition the high school has secured are the services of Harry C. Burbridge, teacher of sciences, who has been added to the faculty. Laboratories will be equipped before the opening of school this fall.

Monday, September 14, is the date set for the opening of the fall term of the school.

Courses in modern languages will be offered and the high school course of study recently submitted by the committee of twenty-one at Reno and Carson and which was adopted by the state board will be put into effect.

Already many of this and last year's graduates have signified their intention to take advantage of this fourth year's work. Those who have already decided to return to school are urged not to allow this opportunity to pass by. Students intending to return for the fourth year should notify Gilbert C. Ross, Nycio building, of their intention in order that some estimate of the apparatus required can be made.

CORKING TIME.

An Irishman entered a country inn and called for a glass of the best Irish whiskey. After being supplied he drank it and was about to walk out when the following conversation took place:

Landlord—Here, sir, you haven't paid for that whisky you ordered.

Irishman—What's that you say?

Landlord—I said you hadn't paid for that whisky you ordered.

Irishman—Did you pay for it?

Landlord—Of course I did.

Irishman—Well, then what's the use of both of us paying for it?—Titt-Bits.

QUIET WEDDING AT ST. MARKS

YOUNG COUPLE FROM SMOKY VALLEY UNITED IN BONDS OF MATRIMONY.

A quiet wedding was solemnized at St. Mark's Episcopal church last evening, Lloyd B. Thomas, rector, performing the ceremony. The contracting parties were George Washington Dron and Louise Gedron, both of Smoky valley. Both the young people are well known to the northern end of Nye county and have a host of friends in that section. The young couple will be at home in Round Mountain after August 25, where the groom has large mining interests.

The bride carried a bouquet of native grown flowers, consisting of sweet peas, carnations and mignonettes which were raised in Tonopah.

A wedding collation followed the ceremony, given at the Montana restaurant, to which twelve guests were bidden. The bride and groom were toasted many times and a long and prosperous journey on the sea of life was wished the young couple.

MOGUL NOW IN LIST OF SHIPPERS

HAS SWITCH CONSTRUCTED TO BETTER HANDLE THEIR PRODUCT.

J. V. Priest, president and general manager of the Mogul Mining company at Ray, has just completed a switch on the Tonopah and Goldfield railway, eight miles north of this city, for the purpose of handling the ores from the Mogul mine, which are to be shipped to the smelters at Salt Lake. The switch is run into a cut over which a bridge has been built and the ore wagons are driven on to the bridge, the boards pulled and the ore dropped into the car. They have commenced loading the first car and it will be on the way to the smelters at Murray, Utah, at which are located the great works of the United States Smelting and Refining company, by Friday of this week. In a very short time they expect to ship from two or three cars a week.

Twenty men are now at work at the mine and two six-horse teams are engaged in hauling the ore. They expect within a very short time to increase their force of men and put on double the number of teams, wagons for which are now on the way. They are now at a depth of 400 feet, where they are cutting a station and will continue sinking to the 500 level, continuing development to tap the vein which is now about twenty-five feet from the bottom of the shaft. In the north crosscut, which is in some 300 feet, they expect to cut the contact ledge in a short time. The value of the ore shipped is between \$40 and \$50.
